Hot Water and Steam Systems

Residential and commercial tank-type electric, atmospheric gas, and high efficiency gas water heaters, storage tanks, electric and gas tankless water heaters and gas tankless rack systems; Manufactured by A. O. Smith Corporation in the USA

INDUSTRIES LTD.

Glycol and system feeders, chemical bypass feeders, condensate neutralizers and pumps, demineralizers, boiler treatment chemicals, and other specialty hydronic products

A ThermOmegaTech® product

Self-actuating thermostatic balancing valves for DHW systems, and drain tempering valves for commercial applications

Commercial instantaneous and semi-instantaneous water heaters, heat exchangers, and tankless coils, as well as HVAC coils and replacement tube bundles *Commercial products only available in Northern Ohio

Full range of hydronic circulators and pumps, hot water recirculation pumps, and booster pumps

MANUFACTURING CO., INC.

Thermostatic mixing valves, including ASSE 1017 master mixing valves, ASSE 1070 point of use mixing valves, and emergency tepid water solutions

Radiant tubing and manifolds, QuickTherm™ insulation, VersaTherm™ flooring system, air and hydraulic separators, and a full range of mechanical room components; Offering full-suite design assistance to engineers, contractors, and wholesalers

The Barrier™ high performance polystyrene insulation for radiant and snowmelt projects, Solex reflective foil insulation for staple up applications

Domestic hot water tempering systems, commercial and industrial controls, valves, and actuators

Spirovent coalescing type air elimination, hydraulic separation, and dirt separation products

Control solutions for radiant, snowmelt, multiple boilers, DHW, and solar thermal

Full line of residential cast iron and condensing boilers, indirect-fired water heaters, buffer tanks, and oil furnaces; commercial cast iron water and steam boilers up to 2320MBH and condensing stainless steel boilers up to 800MBH
